

Frozen Yogurt Dessert Base for Soft Serve Machines

We are proud to announce the addition of cultured berryo frozen yogurt base. It complements our fantastic range of soft serve and frozen yogurt bases. berryo has proven to become our Flagship Product in Frozen Yogurt Desserts. It has healthy attributes like “no fat” and “packed with prebiotics and probiotic cultures”. From an operational and functional point of view, its ease of mixing, its consistency, its superb functionality in soft serve machines makes berryo unbeatable (no separation, good aeration and long meltdown time).

berryo contains >1,000,000 probiotic bacteria per gram. berryo also contains the prebiotic fiber, Inulin, with reported health benefits. Easy to mix, conveniently packed, a long shelf life, delicious tart flavor and a low cost per serve makes this a very profitable product.

Nutritional Information

(when reconstituted as per mixing instructions)

	Avg. Quantity
Calories	114
Protein	2g
Fat	0.2g

Storage/Shelf life

Storage is below 77 degrees with a shelf life of 18 months. After mixing, it is stored below 41 degrees and used within 3 days.

Mixing is Simple:

berryo Traditional Yogurt

- Pour water into graded mixing container
- Open one bag and add to water while whisking/whipping with a wire whisk/whip
- Stir until sugar is dissolved
- Cover and stand for 10 minutes allowing ingredients to fully re-hydrate
- Add lemon juice (2.7-4.0 oz.) and stir. We recommend ReaLemon for the best, most natural taste. Visit www.realemon.com
- Pour into soft serve machine and freeze down

Enjoy!

Green Tea Yogurt

- Pour water into graded mixing container
- Open one bag and add to water while whisking/whipping with a wire whisk/whip
- Stir until sugar is dissolved
- Cover and stand for 10 minutes allowing ingredients to fully re-hydrate
- Add green tea powder to taste and stir
- Pour into soft serve machine and freeze down

Enjoy!

Our special graded mixing buckets make mixing effortless.
